- Flexible
- Organization
- Team-player
- Committed

PROJECTS

- **MyKungFuFlix Movie Application & API - Feb 2023** - Two movie apps, one built in Angular and another in React, using both TDD and Angular's testing systems, that allow the user to favorite different Kung Fu & Wuxia films, create a profile and see details about each film
- **GiftedChat Application - Jan 2023** - An online chat app built using the Gifted Chat library and React Native, along with firestore for saving messages. Users can set their own color schemes, send images & recordings and take pictures all within the application.
- **Local Events Application - Dec 2022** - An "Events-by-city" React application, allowing users to create an account and search to access information about local events by city, including address, date, time & the ability to add them to a google calendar all within the application.

RELEVANT PROFESSIONAL EXPERIENCE

G2 Esports - *Private Chef - Berlin, Germany*

JAN 2022 - JULY 2022

- Ensure meals met nutritional requirements and dietary concerns of each player
- Worked directly with the management team daily to keep track of all team members dietary needs, reworked recipes, maintained strict awareness of ingredients and researched new recipes to fulfill needs of the team
- Provided twenty nutritious meals daily, accounting for the dietary needs of a 10-person team

Battle & Brew - *Marketing Manager - Atlanta, Georgia*

MAY 2015 - NOV 2021

- Promote the business to increase customers.
- Utilized Google Adwords and Facebook Business to advertise the business to potential clients. Developed marketing campaigns that included print and digital. Designed and maintained the business website and integrated Google Tag into the homepage to track actions and conversions.
- The restaurant's Facebook page achieved a following of 23,000 likes. Thanks to promotions, awareness grew and the restaurant relocated to a building 5x larger to accommodate an increase in customers. Due to the success of the first restaurant, a second location is being built to further grow the business.

U.S. Army - *Intelligence Analyst - Giebelstadt, Germany*

MAY 2001 - NOVEMBER 2009

- Ensure uniform workplace safety and maximized reduction of war theater threat
- Read daily briefs, make predictions based on building and analyzing digital maps of reported activity, prepared briefing and presented to helicopter pilots before missions. Updated briefing based on real time data and constant changes.
- Pilot casualties averted thanks to collaboration and timely and accurate risk assessment and analysis.

EDUCATION

- **Certificate in Fullstack Web Development** - Intensive front and back end development program, with a focus on learning how to create both databases and the customer-facing websites that serve them.
 - CareerFoundry - Feb 2023
- **Associate's Degree of Criminal Justice** - Graduated with a specialty in juvenile justice and cybercrime.
 - Chattahoochee Technical College - May 2009
